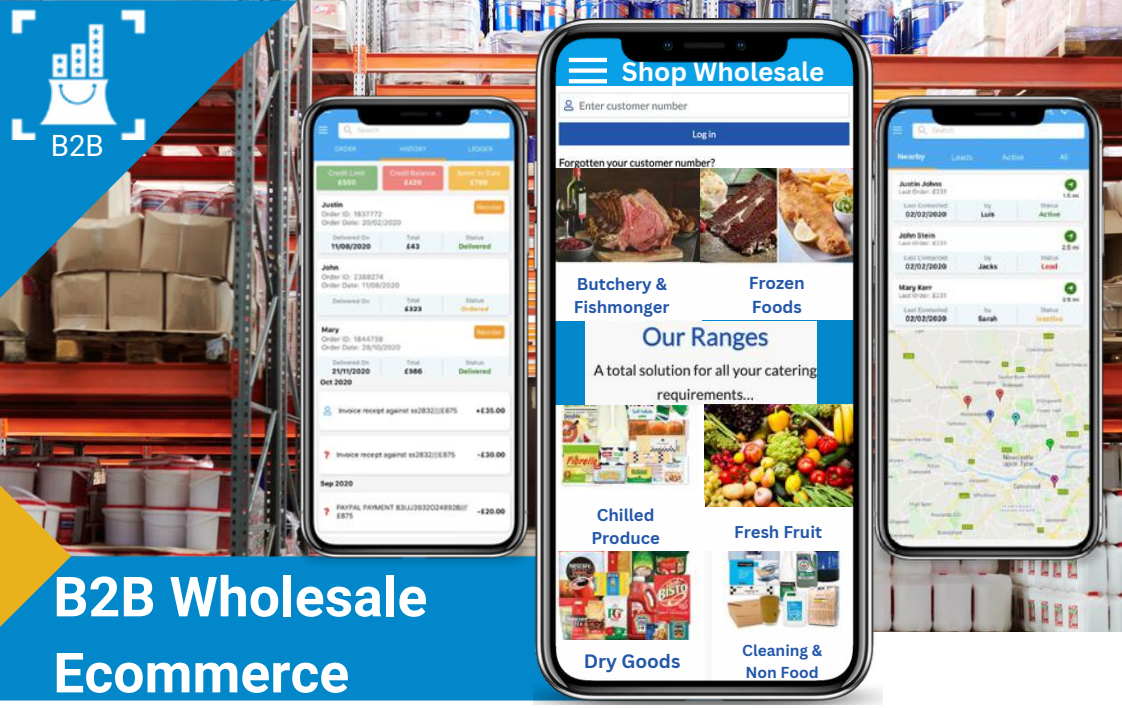
JUST SELL

Complete Ecommerce Solution

JUSTSELL IS PART OF

UPTIVITY



B2B Wholesale Ecommerce

JustSell B2B **A complete B2B wholesale platform** with Ecommerce, Customer Ordering App Sales Rep App and much more.

Built for B2B & Wholesale

A user-friendly e-commerce platform built specifically for wholesale businesses to sell online across the world.

Industry Specific Ecommerce

Works with multiple sectors of wholesale i.e. Building Merchants, Food & Drink, Consumer goods and much more.

NO Commission on sales

Unlike Shopify and other B2B platforms that charge commission on every sale; **we don't 'tax' your growth.**

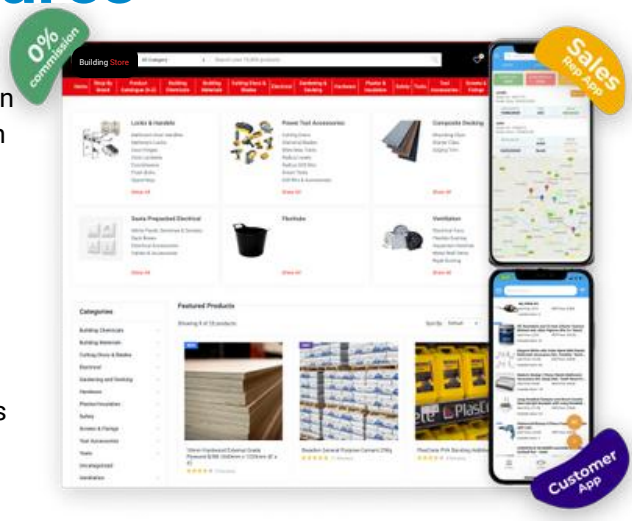
Features

- Integrates with physical stores to update stock, prices and offers in real-time. EPoS also available.
- Account customers personalised pricing, credit limits, invoices, credit notes & statements.
- Sell on multiple channels (eBay, Amazon, Etsy) from within the platform
- Operations management apps like delivery, staff management, compliance also available.

B2B

> RADiUS a large Irish B2B building supply store was particularly interested in the personal pricing and credit accounts feature. We integrated JustSell with their wholes EPoS system.

Enhanced Features



- **Listing app** is included. Take a picture, add a description and in one-click, the item is listed with updated stock, prices & offers.
- **Manage Shipping** allows you to compare different shipping methods and costs within the platform.
- **E-marketing Tools** built-in tools for email campaigns, SEO and much more.
- **Customer Apps & Online Portal** allows customers to order direct from your own branded app and portal where they can easily access their account history.

B2C/D2C Ecommerce

JustSell

Complete retail and D2C Ecommerce platform with your store branded customer ordering app and so much more.

One-stop webshop

A user-friendly Ecommerce application for both service and product-based business to sell.

Branded ordering app

Your own branding on the webshop and the consumer app. And select from sector-based themes.

NO Commission on sales

Unlike Shopify and other B2B platforms that charge commission on every sale; **we don't 'tax' your growth.**

Features

- Integrates with physical stores to update stock, prices and offers in real-time. EPoS also available.
- Online payments integrated, for both webshop and app.
- Sell on multiple channels (eBay, Amazon, Etsy) from within the platform
- Operations management apps like delivery, staff management, compliance also available.

> Newcastle business called ‘Noor Couture' took a JustSell webstore and business-branded apps so they can sell not just to local customer but also to international customers direct without paying commission.

Enhanced Features

- **Listing app** is included. Take a picture, add a description and in one-click, the item is listed with updated stock, prices & offers.
- **Manage Shipping** allows you to compare different shipping methods and costs within the platform.
- **E-marketing Tools** built-in tools for email campaigns, SEO and much more.
- We can **Customise** to suit all your needs, at much lower costs than Shopify.

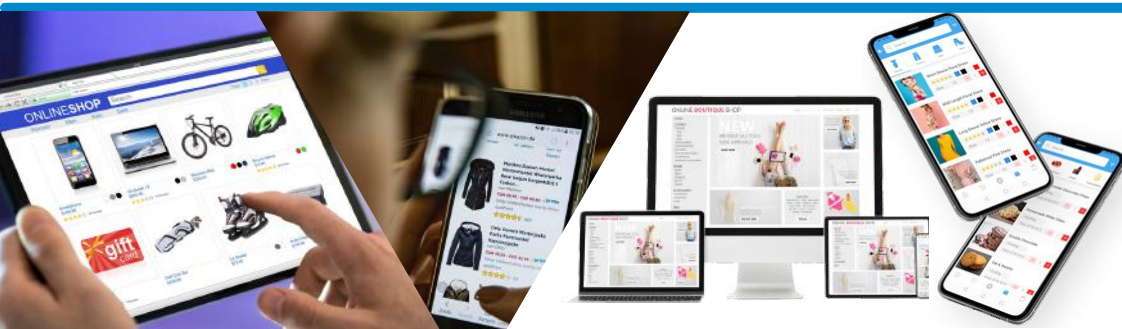
Uptivity



Appointments, Bookings & Reservations System

JustSell Services

We help you do what you do but better. Uptivity is a British based award winning technology company.

Appointments Simplified

More online paid appointments, less calls, reduced no shows and incoming calls.

Multi Sites & Staff

Create multiple sites relevant team members. Set their own availability and services costs.

App or website

JSS can be integrated into your website or you can use an app, with your branding.

Features

- Book appointment by picking a preferred consultant and selecting from their free slots.
- Or book an appointment by picking any free slot, regardless of consultant.
- Option to ask for payment at booking. Reminder texts sent to avoid missed appointments.
- Sell products along with your service business.

> JustSell Services is being used by Dubai Community Health Centre. Rather than calling & asking for an appointment, people just book an appointment website by selecting the therapist they want to see.

Enhanced Features

- Tailored for various service based businesses i.e. healthcare, hair & beauty, vet practices, repair garages etc.
- E-marketing Tools built-in tools for email campaigns, SEO and much more.
- Can be connected to your existing practice management systems.
- Take full or part payments in advance to avoid no-shows and cancellations.

Time & Attendance System

Attendance Rota

Easy to install and easy to use time and attendance system. Helps you manage shifts and staff across multiple locations.

Touchless clocking

Using voice commands and face scanning, staff can clock in without touching anything.

Quick self set-up

Download the app, install it and start enrolling staff. No need for engineer visit.

Cross-checking shifts

Create and schedule shifts which then compares against actual clock in and out.

Features

- Create rota with one-click. It will match staff roles and availability with shifts.
- Sending clocking data to payroll system. Just export all the clocking logs.
- Uses an Android tablet, so no specialist hardware. Saving installation & support costs.
- Facial recognition & voice activation clocking.
  Fully GDPR compliant.

> A large EU railway company was after a touchless clocking in system which was GDPR compliant and was easy to install or replace by their own team without having to wait for site engineer's visit.

Enhanced Features

- Detailed & customised reporting for large distributed corporates with multiple sites delivering multiple contracts.
- Automate and rotate shifts so all workers get to work all shifts for a fair work environment.
- Employee App offers location based attendance for staff who work out in the field. The app allows staff to view their shifts, request holidays and report absences too.
